

TMR ROOFING

TUSCANO-MAHER ROOFING, INC.

PROJECT	NSD Building	1993
BUILDING OWNER	Westnghouse Waltz-Mill	
AREA	Five Thousand Square Feet	
DESCRIPTION	This new construction project was one of our first experiences with JPS Elastomerics' black EP Membrane.2.5" of isocyanurate insulation was mechanically attached to the 20 gauge steel deck with corrosion resistant fasteners. The polyester reinforced membrane with heat welded seams was mechanically attached through the insulation. Perlite crickets were installed to provide positive drainage of the roof surface. Stainless steel metal edge was fabricated and installed to finish all perimeter details.	
ARCHITECT/SPECIFIER	Tuscano-Maher Roofing Inc. 373 Moween Road Saltsburg, PA 15681
