

<b>PROJECT</b>	Kittanning Riverfront Park
<b>BUILDING OWNER</b>	Borough of Kittanning South McKean St. Kittanning, PA 16201
<b>AREA</b>	Eight Thousand Four Hundred Square Feet
<b>DESCRIPTION</b>	<p>This project involved roofing two rest rooms and two picnic pavilions spread along one-quarter mile of riverfront. Tuscano-Maher Roofing Inc. used on-sight roll forming to fabricate the 20 oz. copper panels from more than seven tons of copper coil. All of the panels, clips, gutters, and caps were custom built for this project. Copper finials were procured and installed atop the two lantern cupolas.</p> <p>Skilled craftsmen completed this project and all of the painstaking custom fabrication, much of it on near vertical 75 degree slopes, within the time constraints required for the park's dedication.</p>
<b>ARCHITECT/SPECIFIER</b>	Urban Design Associates - Peter Kreuthmeier, RA 1133 Penn Ave. Pittsburgh, PA 15222
