

PROJECT	Pepsi Plant - Johnstown
BUILDING OWNER	Pepsi Cola Bottling Co. Industrial Park Drive Johnstown, PA 15904
AREA	Forty Thousand Square Feet
DESCRIPTION	<p>This was a new construction project done in conjunction with a general contractor.</p> <p>After the new steel decking was installed a layer of 1.5" isocyanurate insulation was mechanically attached. 1/2" of fiberboard insulation was set in hot asphalt. Two layers of fiberglass felts were installed in hot asphalt. A layer of durable Stressply E, by the Garland Company, was installed as a cap sheet. The entire assembly was flood coated with hot asphalt and the covered with slag to provide ultraviolet resistance and foot traffic protection.</p> <p>Tuscano-Maher Roofing Inc. shop fabricated 8" heavy gauge aluminum gutters using our own computerized brake. New .040 aluminum metal edges were color matched, fabricated and installed.</p>
ARCHITECT/SPECIFIER	Joe Phillips The Garland Co. Allison Park, PA 15101-1074
